THE FFX
LEGACY

No other snare drum has changed the face of marching competition like the FFX Championship Series. No matter which of our premium shell designs are used, the truly Free-Floating design of the FFX sets the industry standard for dynamic range, sensitivity, and unsurpassed projection.

The FFX Aluminum Edge Ring frame gives you a top bearing edge that can take all of the pressure necessary for today's high tension heads. Without any mounting devices attached, the shell is free to enhance the tonal response, and focus the drum's maximum sensitivity and volume.

All Pearl Marching Shells
are made using Pearl's Exclusive
SST Superior Shell Technology.

A STANDARD OF EXCELLENCE

BEFORE THE BADGE GOES ON

Superior Shell Technology
and Premium Materials
Make all the Difference.

Pearl Concert Drums have set the standard of world class symphonic performance for over 30 years. Working with some of the world's greatest performers and orchestras, we have developed a collection of instruments that are unmatched in quality and dependability. The Philharmonic snare drums are the most successful concert drum series in history, with nearly every professional orchestra in the world boasting at least one drum in its inventory. The combination of clean design and simple operation, along with Pearl's SST shell technology, players are able to choose from a family of instruments that deliver on tone, projection, expression, color, and dynamics to suit any musical or environmental need.

Three complete lines of drums including the Concert, Symphonic, and Philharmonic Series, each offer a distinctly refined combination of material, configuration, and function. Whether you play in the finest concert halls in the world, the band room at your school, or even on the marching field of competition - there is a Pearl concert drum to perform at the highest level.

LIMITED LIFETIME WARRANTY

Pearl Drums are designed and manufactured to provide the highest standards in quality, style, appearance and playing performance. Pearl takes pride in its products and takes great care to utilize the best materials and the highest standard of craftsmanship in their manufacture.

Pearl Concert Drum Shells are guaranteed against material failure, ply separation or going out of round for life. Pearl is proud to be one of the few drum companies in the world to offer a Limited Lifetime Warranty on our drum shells.

SUPERIOR SHELL TECHNOLOGY
ASSURES MANUFACTURING EXCELLENCE. EVERY TIME.

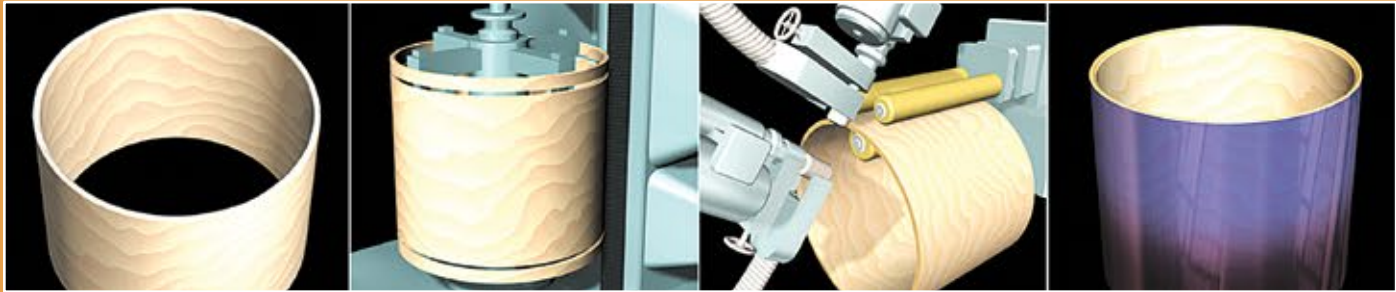

No inferior butt seams here. These tapered scarf joints seamlessly overlap for perfect shell resonance and consistency.

Our proprietary "AcoustiGlue" permeates the wood and hardens to the same consistency as the wood.

The scarf joints are carefully staggered upon insertion of the specially designed mold.

Extreme heat and over 1000 PSI pressure are simultaneously applied to the shell during formation.

A perfect, gapless air chamber.

The shell is then trimmed and the ends squared to assure overall tuning consistency and head seal.

Our exclusive bearing edge incorporates a 45° out and 45° in, slightly inset from the exterior to optimize contact with the flat portion of the drum head.

Pearl's finishes are the industry state-of-the-art. Your choice of finish is encased in layers of highly durable urethane and polished to a high luster. Truly a work of art.

EXPERIENCE THE
PEARL
DIFFERENCE
in MARCHING
PERCUSSION

CarbonCore Snares and Tenors feature a 100% Maple Shell, with an added inner ply of ultra light Carbon Fiber. The added “CarbonCore” material takes these higher-frequency voices to their most expressive limits - clear and articulate at low volumes, crisp and powerful at high volumes. The warmth of tone given by 6-plyes of Maple, married with the boosted highs of the CarbonCore creates a brand new maximized Snare and Tenor sound. CarbonCore is the newest Pearl sound on the field, and an instant Championship Sound.

Championship Maple is the industry standard in marching drums due to its range of frequency response and warmth in sound quality. Maple shells have a smooth, even texture that remains durable under a wide range of conditions and accepts a variety of rich lustrous finishes. Maple is the choice of champions-a full, articulate sound chosen by world class Marching Ensembles year after year.

Maple - Maple is the ideal choice for concert drums due to its range of frequency response and warmth in sound quality. It has a smooth, even texture that remains durable under a wide range of conditions. Maple accepts a variety of rich lustrous finishes, making it the choice of professionals and ensembles around the world.

Poplar / Kapur - The new blended Poplar and Kapur shells of the Concert and Competitor Series bring the economy and durability of Poplar together with the lush, full tonal response of Kapur - a material usually reserved for only high end instruments. The result is a drum with a strong attack and projection with outstanding lows and punch for any environment.

African Mahogany - African Mahogany delivers a dramatic boost in lower frequencies. This makes it the ideal choice for concert toms, bass drums and larger snare drums that need to deliver a dark, forceful tone that can be heard over an ensemble.

Kapur - The 100% Kapur shell of the PBE bass drum is the best sounding drum of its kind. Darker and fuller sounding than regular mahogany, the 6 plies of Kapur are ideal for bass drums in any ensemble.

Aluminum - At 3mm thick, our exclusive precision-milled PHA cast Aluminum shell snare drum has a full bodied tone, with a higher overall pitch response than traditional maple. Aluminum provides the warm, round, full-bodied resonance of a wood shell snare, but also possesses the snap, volume and projection provided by a metal snare.

Brass - PHB Philharmonic Brass offers the highest frequency response in the Philharmonic Series with bright cutting clarity and finesse. 1.5mm thick brass Philharmonic shells have a bright, highly focused, well balanced tone perfect for situations needing more volume and clarity.

TENORS BY THE NUMBERS

Tenor Sets are arranged in 7 different sized arrays to suit your physical and musical needs.

SONIC & SHALLOW CUT TENORS

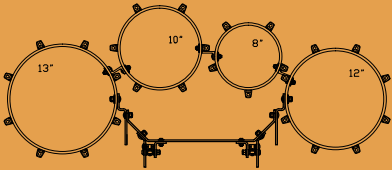

Pearl offers 2 shell depth options for tonal and weight considerations:

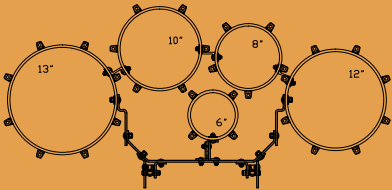

Sonic Cut tenors are the full-length shells of the legendary Pearl sound. Best suited for outdoor playing and large ensembles - Sonic Cut gives you the maximum power and punch you need on the field.

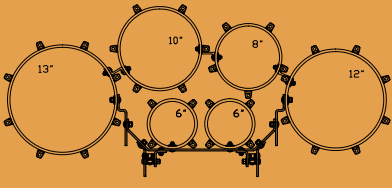

Shallow-Cut tenors have shorter shell depths for reduced weight, and a naturally brighter upper-overtone response. Available in all diameters and configurations.

CHAMPIONSHIP BLACK OUT

Introducing the all new Black Out Powdercoat Hardware line-up to Championship Series Marching Percussion. Black Powdercoat hardware adds a touch of drama to your Varsity or Custom finish drums and pushes your school's spirit over the goal line.

Utilizing the highest quality materials and equipment, technicians apply the durable Powdercoat finish in a closely monitored, custom-built, single-purpose facility, assuring you the fastest delivery and performance that only Pearl Championship drums can achieve.

Hard-hitting, dramatic,
with the strength to go the distance –
there is nothing like a Black Out finish
“Win” for your Championship line.

FFXML1412/B966 #966 Red/Silver Burst

VARSITY

The **NEW** Varsity Wrap Series for Pearl Championship Marching drums makes showing your school spirit fast and easy!

The Varsity series kicks off the 2017 season with 8 vibrant high gloss sparkle wrap finishes in the standard scholastic color palette for all Pearl Championship Wrap series drums. Choose your school color and pick from Fade Top, Fade Bottom, and Burst styles that best fit your school's spirit.

	Fade Top	Fade Bottom	Burst
Blue / Silver	#962	#961	#960
Yellow / Silver	#965	#964	#963
Red / Silver	#968	#967	#966
Green / Silver	#971	#970	#969
Garnet / Silver	#974	#973	#972
Purple / Silver	#977	#976	#975
Orange / Silver	#980	#979	#978
Black / Silver	#982	#981	#983

VARSITY Wrap Finishes will be available beginning in 2017 on all Championship drums including CarbonCore and Championship Maple Series Drums.

Fade Top / #962

Fade Bottom / #961

Burst / #960

Please Note: Patterns listed refer to the snare drum only. Regardless of finish pattern chosen, tenors will always be Top Down fades, and bass drums will always be Burst.

carboncore®
THE MAGIC'S INSIDE

CHAMPIONSHIP CARBONCORE SNARE DRUMS

FFXCC1412/A983 #983 Black Silver Burst

A Marching Battery produces a broad range of frequencies, from the lows in the Bass Drums all the way up to the highs in the Snare Drums and smallest Tenor Drums. Championship CarbonCore maximizes the clarity and projection of the Marching Battery across this entire range.

CarbonCore Snare Drums feature a 100% Maple Shell, with an added inner ply of ultra-light Carbon Fiber. The added “CarbonCore” enhances the expressive capability of the Snare Drum across its full dynamic range – clear and articulate at low volumes, crisp and powerful at high volumes. The warmth of tone given by 6 plies of Maple married with the boosted high frequencies given by the CarbonCore, together create a newly maximized Snare Drum for the Marching Arts.

FFXCC1311/A983 #983 Black Silver Burst

- FEATURES**
- 6 Plies of 100% Maple
 - 1 Inside Ply of Light Weight Carbon Fiber
 - 2 ply Snare Side Reinforcement Rings for Added Strength
 - Fully Free-Floating Design
 - Built to Withstand High Tension Usage
 - 16 Strand Synthetic Gut Snare, Individually-Tunable
 - Stock Finish: #103 Piano Black Lacquer

CHAMPIONSHIP CARBONCORE TENOR DRUMS

PMTCC80234/A983 #983 Black Silver Burst

CarbonCore Tenors are made with 100% Maple Shells, each having an added inner ply of ultra-light Carbon Fiber. The added “CarbonCore” gives the Tenor section a unique EQ'ed place in the sonic mix of the Battery, which holds its own ground for expression between the Bass Drums and Snare Drums. Each drum in a CarbonCore Tenor set comes to vibrant life with an even-clearer articulation and more confident projection than ever before. On all drum sizes and across the full dynamic range, Championship CarbonCore Tenors are audible and beautiful.

- FEATURES**
- 6 Plies of 100% Maple
 - 1 Inside Ply of Light Weight Carbon Fiber
 - 2 ply Reinforcement Rings for Added Strength
 - Fully Rounded Bearing Edges for Superior Tone
 - Available in Sonic or Shallow Cut Options
 - 2.3 mm Solid Steel SuperHoop II Rims
 - 3 Year Warranty on Shell / 1 Year Warranty on Hardware
 - Stock Finish: #103 Piano Black Lacquer
 - Available in 62 Wrap & Hi-Gloss Lacquer Finishes by Special Order

CHAMPIONSHIP MAPLE BASS DRUMS

Maple Basses are the perfect complement to CarbonCore Snare and Tenors. Unparalleled warmth, depth, tone, and full projection characteristic of these 100% Maple shell Bass Drums complete the CarbonCore sound and give your Marching Battery the ultimate foundation. Stocked in #103 Piano Black lacquer to match.

For available sizes, features, and more information on Championship Maple Bass Drums, turn to page 14.

CHAMPIONSHIP *Maple*

#1 IN TONE,
FUNCTION+PROJECTION

INTRODUCING THE
LIGHTEST, FASTEST,
MOST AGILE FFX EVER.

Dr. John Wooton - University of Southern Mississippi

The classic Pearl Championship Snare Drum for over 25 years has been re-engineered for unprecedented agility and now features our revolutionary OneTouch snare release resulting in over 2 lbs. of weight reduction.

CHAMPIONSHIP MAPLE
FFX SNARE DRUMS

It's called Championship Series for a reason. Untouchable by its competitors, absolutely committed to Being the Best. Championship Maple drums stand out as #1 in tone, physical function, and projection. Every drum in the series is designed to its lightest possible weight so performers can push the envelope of visual performance while producing the very best sounds.

Pearl's FFX Snare Drums are the crown jewels of the Championship Series. They are the total package: lightweight mobility, clear projection, and complete richness of sound. A fully Free-Floating design allows unhindered shell response from the 6 ply 100% Maple shell that "floats" in a super lightweight aircraft aluminum frame. The FFX is the best in its class and is competitively proven having contributed to more than a few High Percussion Awards. Championship Maple Series - *Proven trophy magnets year after year.*

FFX ONETOUCH SNARE RELEASE

OneTouch Snare Release

Pull-To-Engage Locking Mechanism

The patent pending FFX OneTouch Snare release features smooth, effortless one finger snare release action and a precision pull-to-engage locking mechanism, all in an elegantly simplified light weight design. Virtually all moving parts have been eliminated with the OneTouch Snare release for maximum durability and lightest weight performance. One-Way Snare assemblies go on quickly and can only be engaged when installed in the correct position, eliminating set-up errors and making tuning and changing heads simple and easy.

FEATURES
• 6 ply 100% Maple Shell
• Free-Floating Design
• Lightweight Aircraft Aluminum Frame
• Aluminum Alloy Edge Ring and Hoops to Withstand the Highest Tensions
• Individually Tunable Snares
• One Knob Quick Release Strainer Allows Fast Head Changes
• 6 Acoustically Located Air Vents
• 3 Year Warranty on Shells / 1 Year Warranty on All Hardware
• Chrome or Powder Coated Hardware Available

COMPETITOR SNARE DRUM CMSX

CMSX1412/C33
#33 Pure White

The CMSX Snare Drum offers many features of the FFX Series Snare Drums, such as a free-floating shell with an aluminum edge ring, which relieves all batter head tension from the 6-ply shell, and polished aluminum tension posts for a classy, sleek look.

FEATURES
• 6 ply Poplar / Kapur Shells
• Lightweight Construction
• 2.3 mm Triple Flanged SuperHoop II
• Available in 13" and 14" Sizes
• CMSX Aluminum Edge Ring Relieves Shell Tension
• CMSX Compatible with CXS and MXS carriers
• Ultra Sensitive 12 Strand Synthetic Snares
• Lever Activated Snare Strainer
• Standard Covered Finishes: #33 Pure White, #46 Midnight Black

SIZES & FINISHES	
CMSX1412/C	14" x 12"
CMSX1311/C	13" x 11"

Competitor Series offers high value results at an affordable price. New features include upgraded construction on the entire Series with composite shells of durable Poplar and full sounding Kapur. Competitor Series is also tremendously light weight for Marching Drums, a sure benefit for any band who has smaller players or needs to be extra light on their feet. Take the field with a Marching Battery of incredible quality, without incredible weight!

COMPETITOR SNARE DRUM CMS

CMS1309/C46
#46 Midnight Black

The CMS Snare Drum offers Pearl quality at the lightest weight of any Marching Drum available. Constructed using the same Superior Shell Technology (SST) as Pearl's Championship Series, you can be sure that CMS Snare Drums will deliver crisp response reliably through years of use. Chrome 3-part full-length Die Cast lugs and triple-flanged steel hoops make tuning a breeze, and built in snare guards on each side of the bottom hoop add built in protection to CMS Snare Drums. The perfect choice for any band wanting to use Mylar drumheads for that classic Marching Battery sound.

COMPETITOR TENORS

CMT8023N/C46
#46 Midnight Black

Competitor Tenors offer extreme value and performance to put your Band in the Winner's Circle. New additions include upgraded construction with composite shells of durable Poplar and full sounding Kapur feature a rounded bearing edge like Championship Drums for a robust yet projecting tone. Pearl's sonic cut on the shell bottoms project that big sound right to your audience.

CMT802N/C46
#46 Midnight Black

The lightweight zinc lug casings provide precise even tuning. The bottoms of the shells are protected by rubber Tom trim, and lightweight aluminum Tom spacers keep positioning perfect.

JUNIOR MARCHING SERIES DRUMS

Get your aspiring young drummer on the field with the Junior Marching Series Carrier, designed to comfortably fit the smallest of body frames. Furthermore, Junior Marching Series snares and tenors are compatible with Pearl's MX T-frame carrier, providing a lightweight battery option for the conventional corps, pep band, and scramble-band alike.

Pearl's Junior Marching Series' Poplar shells provide durability, while the age-appropriate sizes allow for even the smallest players to experience the joy and excitement of playing marching drums. Field-ready right out of the box, Junior Marching Series drums are finished in a classic #33 Pure White wrap and packaged with a matching pre-assembled white powder-coated carrier. Pearl's Junior Marching Series battery is a must have for any elementary or middle school music program.

MEDALIST

Championship Pipe Drums combine the ultimate in build quality, tunability, and appearance. The free-floating Birch shells of Championship Pipe Snare Drums deliver the “crack” and “snap” that make your tunes groove, while also providing the most expressive canvas for low-dynamic playing. Paired with the warmth of Maple Tenors and Maple Bass Drums, the Championship Pipe Battery gives a fantastic sonority across the entire frequency range. Walk onto the competition field with full confidence.

Pearl Championship Pipe Series...
the chosen Instruments of Champions.

Greater Glasgow Police Scotland
Pipe Band • Glasgow, Scotland

The new Championship “Medalist” Snare Drum is the lightest in its class, just 6.25Kg / 13.8lbs. The reduction in weight has been reached by looking into every detail of the snare. Firstly the shell construction; it’s an 100% Birch 5.0mm even 4 ply shell which resulted in a huge weight reduction. Secondly, the top and bottom strainer have been redesigned which resulted in a 35% weight reduction compared to our previous model.

Next to the reduction in weight other improvements have been made. Pearl has created new Snare Wires which are meticulously soldered, placed and even tensioned. All the Aluminum hardware including the aluminum alloy edge rings and rims are now fitted with our new Shiny Anodized finish, which give the drums a brilliant finish at the same time a durable and easy to maintain finish; to withstand all weather conditions.

CX AIRFRAME PIPE CARRIER
CXSP1 • U.S. Patent #7671261

- FEATURES**
- 100% Birch 4 ply + 2 ply Reinforcement Rings
 - New “Lightest Pipe Band Snare Drum, Ever!” Just 6.25Kg / 13.8lbs

CHAMPIONSHIP PIPE BASS PB & BDP

Championship Pipe Band Bass drums give you full low frequencies with resounding warmth. The 4 ply Maple shells with 4 ply Maple Reinforcement Ring with 1.5" Maple hoops are meticulously finished in high gloss lacquers in both series of Pipe Bass drums. BDP Series basses have Aluminum Tube Lugs for maximum resonance and reduced weight. PB Series Drums have a 3 part cast lug that runs the full length of the shell for a more economical choice. Both Series are compatible with either CX or MX Series Carriers.

ELEGANTLY SIMPLE
INCREDIBLY SOLID

CX AIRFRAME CARRIER CORPS EXTREME

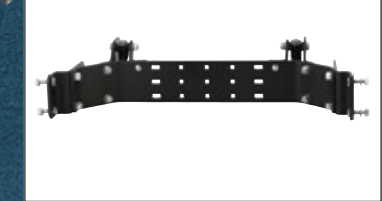

UPGRADED:

New additions include Tenor Agility J-rods (patent pending) that increase upper leg range of motion for tenor players by reducing the J-rod profile between the belly plate and the back bar. Modern body movement is no longer a fight between the drum and the player. The simple and efficient construction unites the drum and player in a common purpose, and looks good under a uniform at the same time.

CXB1 BASS CARRIER

INCLUDES CXBB1/B CXT1 TENOR CARRIER

INCLUDES CXSA2 CXS1 SNARE CARRIER

CXSA2

Pearl's CXSA2 snare attachment provides rigid mounting stability for all free floating snares. The attachment has the ability to angle drums with full tilt up function, and lifts quickly off the J-rods when at rest.

CXBB1/B TENOR BACK BAR

Pearl's CXBB1/B Tenor back bar provides absolute level positioning of all your toms. It permits pinpoint placement and perfect height adjustment with full ease of movement due to its lightweight aluminum construction.

CXBB1 can be adjusted into 4 different positions to allow both 6" and 8" drums.

CX
AIRFRAME

Finally! A carrier that combines lightweight simple design with rugged durability: CX Airframe. A revolutionary breakthrough in carrier design featuring a solid rod form-fitting upper body frame attached to a lightweight aluminum belly plate.

The plush shoulder and belly pads are removable for cleaning and are built with a "stealth" design that allows CX Carriers to practically disappear under uniforms.

The ACS Agility Control System Belt (pictured above) performs two important functions: 1) it reduces back strain by transferring the weight of the instrument to the players hips, thereby reducing fatigue and the chance of injury by lowering the center of gravity; and 2) it unites the player to the instrument for unencumbered performance, allowing players to more easily meet the movement demands of contemporary drill design.

Highly adjustable, with minimal moving parts make this the carrier for players of all sizes and skill levels.

MX T-FRAME CARRIER

Every part has a purpose. Nothing left to take away for pure performance. Explore the range of capabilities the MX T-Frame offers.

MXS1 Snare Carrier

MXSA1 Tilting Snare Mount
Compatible with FFX, CMSX, CMS Snare Drums

BASS CARRIER

TENOR CARRIER

PIPE SNARE CARRIER

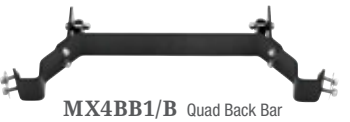

MX T-FRAME
MARCHING EXTREME
CARRIER

The Pearl MX T-Frame carriers offer elegant simplicity combined with solid dependability. These super light frames provide sleek comfort with a wide range of adjustability to fit every size player. A straight forward adjustment with minimal hardware make these carriers the clear choice for any band, and is ideal for smaller players.

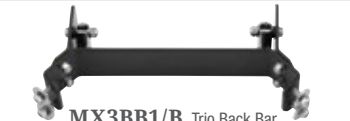

MXSA1 SNARE MOUNT

MXSA1 Snare mount allows secure mounting of both Free Floating FFX and CMSX drums and Spade mounts like the CMS Competitor Snare. The Tilting attachment provides a quick flip up function and allows for tilt positioning.

MX4BB1/B Quad Back Bar

MX3BB1/B Trio Back Bar

MX QUAD & TRIO BACK BAR

Tenor rails are available in Quad or Trio configurations. Both feature precise level mounting of toms and provide tilt up function & detach quickly from the carrier J rods.

MSS3000

MARCHING TENOR STAND

- FEATURES
- Stability Arm for a Solid Playing Surface
 - Height/Range Adjustable Double-Braced Front Leg
 - Oversized No-Slip Rubber Feet
 - Wide Open-Stance Rear Legs Allows Standing Room
 - Easy To Operate Height Adjustment

MTS3000

STADIUM FUNCTIONALITY

Pearl Advanced Marching Hardware Snare, Tenor, and Bass Drum Stands include a height/range adjustable front leg to facilitate drumline performances on level ground and in stadium bleachers. The sturdy double-braced front leg adjusts over a 13.5" range on the center post via two ergonomic Ultragrip wing bolts. The leg can be adjusted from a narrow closed position to a high extended position virtually parallel to the ground.

Pearl's MXB1 Marching Bass Drum Stand keeps even the largest tonal bass drums stable and secure. Its 4-arm adjustable basket and extreme range of height adjustment make it a perfect fit with perfect feel for any sized player on any sized drum.

Easy to use - Rock Solid, any place, any time.

Pearl's Advanced Marching Snare Stand is designed to deliver Rock Solid Stability and Long-Life Performance from rehearsal, to stadium bleachers, to the field, and everywhere else your playing takes you. The MSS3000 is compatible with CX Airframe and MX T-Frame Carrier Systems and only requires a drum key for adjustment.

The MTS3000 Advanced Marching Tenor Stand provides an optimal experience and feel for Tenor players. The low-profile Stability Arm is easy to use and super strong to keep the drums level and evenly supported no matter how much power the music requires. The MTS3000 is compatible with CX Airframe and MX T-Frame Carrier Systems and requires no tools other than a drum key to make adjustments.

QUICK MOUNT LALO REHEARSAL PAD

PAD35LA
Lalo Davila
Quick Mount
Rehearsal Pad

The PAD35LA mounts on tenors via Pearl's MUH10T Tenor Accessory Mount.

The PAD35LA mounts via the PCS11 Bass Drum Accessory Mount which features a 3/8" knurled rod for multiple mounting configurations.

Designed in collaboration with Pearl Artist and acclaimed percussionist Lalo Davila, the *Lalo Quick Mount Rehearsal Pad* provides a convenient way to practice an excerpt or keep your hands warm. The small, 3.5" diameter pad stows away easily, and mounts to any 3/8" post for convenient positioning. Practice in silence in any environment, from the concert stage to the football field. The Lalo Pad is a great rehearsal tool for marching percussion ensembles, providing the battery with a silent practice option. Get your hands going while the band tunes up, or work out a tricky phrase conveniently and quietly.

The PAD35LA can be used on the concert stage, on your drumset or percussion rig, or anywhere you may want a pad handy.

SR500 TRIAD SILENT STRAINER

At the heart of the World Famous Philharmonic snare drum is the revolutionary SR500 strainer system. The Triad Silent Strainer System provides three individual adjustment knobs allowing you to fine tune the optimum tension for each type of snare material mounted on the drum, and a single global adjustment knob on the butt side for quick overall tension adjustments. An easy to reach single throw lever quickly and silently engages or releases all snare assemblies.

SNARE ASSEMBLY TYPES • The snare assembly material itself can have a major impact on sensitivity, dynamic range, projection and response. In addition, the way the snares are attached and function with the snare throw will equally affect the musicality of the instrument.

PHILHARMONIC SOLID PLY MAPLE

Each PHM Philharmonic Snare Drum is hand-formed from a single ply of fully aged prime Maple to achieve the pinnacle of concert snare drum attack, response, dynamic capability, and tonal color in one instrument. *Truly professional quality. Truly amazing performance.*

Silent Tensioning

Pearl's Silent Tensioning System utilizes low mass quiet lugs and ergonomically designed tuning keys featuring 8mm T-Handle Tuning Bolts for optimal leverage and tuning ease.

SR300 SNARE STRAINER

The Multi-Timbre Snare Strainer provides quick access to each of the three separately adjustable throw-offs. Each lever controls separate snare assemblies providing seven possible snare combinations. Complete snare tension adjustment is fine tunable via the three individual knobs for a vast range of aural coloring.

SYMPHONIC SNARE DRUMS

SYP1455
#138 Antique Sunburst

SYP1465
#138 Antique Sunburst

Symphonic Snare Drums are a highly versatile instrument for the modern performer. Developed exclusively for the concert hall these drums feature shell construction of 6 ply Maple in a choice of 2 shell depths, 6.5" and 5.5".

The SR300 Multi-Timbre Snare Strainer System functions as 3 individually controlled throw-offs, allowing for 7 snare combinations to fine tune your sound to the music. The Multi-Timbre strainer allows individual control over tension and positioning of each snare strand material stainless, coated cable, and wire.

SYMPHONIC SERIES TOMS

Today's music requires instruments with power, projection, and fullness of sound. Today's percussionist demands instruments that have a tonal quality that can be used in the studio for the most delicate passages, powerful enough to be heard at the back of the stadium if needed, and durable enough to last on the road. Pearl Symphonic concert toms do all that with the best hardware on the market to back it up.

ACADEMY SERIES XYLOPHONE & MARIMBA

The Academy Series instruments feature a patent pending Integrated Resonator Rail System that provides not only a quality bar suspension and box resonator format, but also the rigid Aluminum Beam structure that makes these instruments the most durable in this class. Academy series keyboards can be used on a table -top, or with the double leg X-style stand. A carry handle is provided to make transport easy and soft cases are available separately. Academy Series keyboards feature the same hand-adjusted bar tuning methods as the top of the line Artist Series instruments and include a pair of mallets and drop cover.

- AMPD30 MARIMBA**
- Padouk bars
 - Octave range: 3.0 C3-C6
 - Easily storable keyboard stand included
 - Built-in carrying handle
 - Box resonator
 - Includes drop cover and 1 pair of MB1 mallets

- AXLD35 XYLOPHONE**
- Light Rosewood bars
 - Octave range: 3.5 F4-C8
 - Easily storable keyboard stand included
 - Built-in carrying handle
 - Box resonator
 - Includes drop cover and 1 pair of XB6 mallets

3.3 ACADEMY MARIMBA WITH RESONATORS

Welcome the newest member of the Academy Series of Student Instruments, the all new AMPD33R Padouk Marimba. The AMPD33R features a revolutionary Transverse Resonator System that enhances the tonal performance experience while still allowing the instrument to have the maximum height adjustment for the younger player. The

resonators detach from the Aluminum Rail System of the 3.3 Oct Padouk bar marimba, allowing the instrument to be easily transported or stored. The extended 3.3 oct range of the AMPD33R adds notes down to A2, allowing the player to access a majority of the literature written for the beginner to intermediate player.

- AMPD33R**
- 3.3 octave range, A2-C6
 - Graduated Padouk Bars

Optimal range of height adjustment to accommodate any size student.

EDUCATIONAL KITS

The perfect start to a career in percussion begins with high quality instruments. Pearl Educational Kits contain superior components that are fast and easy to assemble. The components of each kit store away for easy transport in their own custom made carrying case. The 910 Series Cases have been made more durable with reinforced handles, added pouches, and more compact size.

CYMBAL STANDS

Pearl is the choice of the serious working drummer. We've been advancing drum hardware since 1946 so if you're serious about drumming, get serious about your hardware. Our C1030 features top-shelf features like a GyroLock tilter, patented (U.S. Patent #7176368) WingLoc Quick Release Wing Nut, patented (U.S. #6940006) Reversible Seat Cup, and Trident Tripod for the ultimate in professional grade performance.

The C930's Clamshell design provides superhuman clamping force. Set your position, lock it down and wail away.

The C830 offers lighter weight while incorporating many of the 1030 series designs. Large, easy-to-use wingnuts and lateral struts ensure optimal stability.

EXX705N/C91
#91 Red Wine

After 30 years of being the #1 Selling drum set in the world, Export Series is still the name every drummer knows. Having jumpstarted thousands of drumming careers by bringing quality and value into one package, today's Export continues to build legends. With features like Reference-inspired shell composition, wrap finishes, and our unbeatable 830 Series hardware package, Export is ready to fuel the fire for future drumming icons.

ePRO POWERED BY EXPORT

EPEXX725S/C
#708 GRINDSTONE SPARKLE W/ EP02P CYMBALS & EHH2 HI-HAT

The new generation of real electronic drums. ePro Powered by Export is the new generation of electronic drums from Pearl. We have combined the power of ePro Live with our Export series to give you the real look and feel that today's drummer demands. ePro powered by Export is available in both Lacquer and Wrap Finishes and includes the new EHH2 Hi Hat controller.

TRUTRAC ACOUSTIC TO ELECTRIC CONVERSION

Convert any acoustic drum set to an electronic drum set as easy as changing a head with Pearl's Tru-Trac Pack and Tru-Trac Conversion Kits. Tru-Trac Packs are available in two preconfigured kits that include 4 Dual Zone Electronic Drumheads, Electronic Bass Drumhead, 5 No-Drill Adapters that port the cables through the air vents, 5 TRS Cables to connect the drums to the module and extra-long Tension Rods. Tru-Trac Conversion Kits are available in 4 configurations and each includes everything in the Tru-Trac Pack plus a r.e.d.Box Module, Cymbals, Hi-hat Controller, and Holders.
